

## Cameo EKS XLR - Emergency Stop Switch with Key Control

CARACTERISTIQUES GENERALES :	
Réf :	AH-CLLEKSXLR

### Cameo EKS XLR - Emergency Stop Switch with Key Control

The EKS XLR is a key controlled push-to-stop and twist-to-release master switch that connects to a laser lights remote interlock input. The unit features a highly visible bright yellow enclosure of hardwearing impact resistant plastic with a red emergency stop palm button.

The EKS XLR is compliant with all European regulations for Class IIIb and IV laser light safety.

Remote emergency stop for laser lights

Push-to-stop, twist-to-release red palm button

Key control prevents unauthorized operation

3-Pin XLR female interlock connector
