

Neutrik NE8MX-B - Protection for RJ45 Plug, etherCON, black

CARACTERISTIQUES GENERALES :	
Réf :	AH-NE8MXB

Neutrik NE8MX-B - Protection for RJ45 Plug, etherCON, black

The cable connector protection for pre-assembled RJ45 cable connectors consists of a black chrome-plated housing, stop washer, collet chuck, clamping sleeve and kink protection. It is supplied with two kink protection elements for cable diameters up to 5 mm or 8 mm. An RJ45 cable connector is not included in the scope of delivery.

The etherCON cable connector protection upgrades a conventional RJ45 connector to an extremely robust and lockable solution.

Attention! Not compatible with the CAT6 panel jacks NE8FDY-C6 and NE8FDY-C6-B.

Rugged RJ45 Connector System for harsh Environments

All common RJ45 Cable Connectors can be Mounted (see List under Downloads)

Robust die-cast Housing and proven Collets Strain Relief

Prevents the fragile locking lever of the Standard RJ45 Cable Connector from breaking off

Assembling of pre-assembled RJ45 Cables

Accessories include 9 different coloured bend Protection Sleeves
